

Comprehensive Arkansas Higher Education Annual Report

December 1, 2009

Quick Surveys

Arkansas Department of Higher Education

114 East Capitol, Little Rock, Arkansas 72201

Quick surveys are performed on request. The requests typically come from the legislature. The following quick surveys are included.

- Attachment 1 Survey of Concurrent and AP High School Student Enrollment for Academic Year 2009, Fall and Spring Terms
- Attachment 2 Survey of Course Section Offerings
- Attachment 3 Survey of LPN Programs
- Attachment 4 Survey of 75 Percent Completers

Explaining the Quick Survey of Concurrent and AP High School Student Enrollment

Why was this survey conducted? ADHE ran a database report in the spring of 2009 showing both concurrent and blended AP courses. This report produced results that led ADHE to believe that the data was inaccurate, hence this survey.

(1) Most institutions reported duplicated headcount, but some reported unduplicated headcounts. Therefore, the total of about 24,000 should be increased slightly.

(2) Some institutions did not include enrollment from Secondary Area Centers and some did.

(3) Some institutions provided a count of unique courses, not a count of course sections.

(4) Percent Discounted and/or No Tuition/Fees or Scholarships -- this is a very confusing number to report accurately as many institutions provide assistance in many different ways. The number shown represents the best estimate using the information provided by the institution as interpreted by ADHE.

Conclusion of Survey: ADHE must fine-tune its data reporting requirements and the reporting institutions must do a better job of reporting this data correctly.

Rick Jenkins
Associate Director for Planning and Accountability
Arkansas Department of Higher Education

TOTAL UNDUPLICATED HEADCOUNT OF HIGH SCHOOL STUDENTS TO-DATE = 13,391 (does not include Spring Off-Schedule, Summer 1, or Summer 1 Off-Schedule)

**Results of Quick Survey of Concurrent and AP High School Student Enrollment
Arkansas Public Colleges and Universities
May 2009**

NOTES AND COMMENTS

ANC - These courses were offered in the high school for high school students only. It does NOT include our Secondary Center students.

ASUJ - 648 students is not unduplicated headcount (duplicated)

ATU - students had a scholarship applied that covered tuition and fees.

NAC - for AHECS Concurrent - Northark billed AECHS for tuition and they billed us the same amount to pay the instructors, so no actual fees changed hands.

NAC - for AHECD blended AP - Northark billed AECHS for tuition and they billed us the same amount to pay the instructors, so no actual fees changed hands.

NPCC - 100% scholarships and the NPCC numbers are NOT registrations, but unduplicated headcount

PCCUA - the numbers are unduplicated enrollment and does include secondary area center courses.

RMCC - For the 2007-2009 RMCC was a part of a legislative pilot program for concurrent credit.

Representative Bill Abernathy passed legislation for RMCC to provide concurrent classes to high schools in its service area at no charge to the students. This included a waiver for tuition and books. Therefore our numbers will be somewhat different than normal.

SAUT - These represent students who are given the Dual Credit Scholarship and therefore no tuition/fees are collected.

SEAC - 100% scholarships

UAFS - for regular concurrent courses - UA Fort Smith applied scholarship/complementary waivers through the following two options: For 19 students, participating high schools paid the full tuition amount for the course, and UA Fort Smith subsequently applied a scholarship/complimentary waiver to the student's account for the amount of fees.* For 28 students, each student paid half of the tuition, and UA Fort Smith subsequently applied a scholarship/complementary waiver to the student's account for the remainder (half) of tuition and all fees.*

UAFS - for WATC concurrent courses - WATC is an area secondary center, which receives funding from Arkansas Department of Workforce Education. This specially funded program allows us to waive the fees to students who participate in this program. No portion of tuition or fees for WATC students is paid through the UA Fort Smith scholarship budget as all costs billed to students' accounts are paid by grant funding through the Arkansas Department of Workforce Education.

UAFS - for blended AP courses - For 149 students, each student was required to pay half of the tuition. UA Fort Smith subsequently applied a scholarship/complementary waiver to the student's account for the remainder (half) of tuition and all fees.

UAFS other notes - *Tuition and fee payment arrangements vary based on delivery method for each course. Some courses are offered via Compressed Interactive Video (CIV) while others are taught on the high school campus. **These blended AP course were only offered at Van Buren High School. ENGL 1203 Freshman English I and ENGL 1213 Freshman English II from UA Fort Smith was blended with AP English, and POLS 2753 American National Government was blended with AP Government. Students must choose at the beginning of the semester if they want to enroll for the UA Fort Smith concurrent credit option and are required to meet all UA Fort Smith and ADHE concurrent enrollment requirements prior to registration. Enrollment in the UA Fort Smith concurrent credit option is not allowed after the class/semester has begun.

UAFS - UAFS waives all fees (scholarship/complementary waiver) on all concurrent and AP courses, so the numbers shown on the table represent tuitions scholarships only.

UCA - * Enrollment represents duplicated headcount. ** Tuition is charged for all enrollments, but the student's outlay to participate in UCA's concurrent enrollment program is currently zero. School districts pay full tuition for students to take UCA courses, and UCA compensates the district for using its resources. The final outlay to participate is zero for the district. UCA's rationale for this agreement has been that because UCA uses high school resources (classrooms, teachers, equipment, etc.), the university should compensate the high schools for the use of these resources.

ADHE QUICK SURVEY: AY 2009 COURSE SECTION OFFERINGS UNDERGRADUATE LEVEL ONLY

ADHE requests that your institution participate in this informal survey for the purpose of obtaining a total count of course sections offered at your institution for the current academic year (Fall 2008 and Spring 2009 terms only). Please complete the below form for your institution only by reporting the number of course sections offered in each category for your school (for undergraduate courses only).

When complete, please return the completed file to ADHE by emailing this file to:
Rick Jenkins at rickj@adhe.edu,
Sharon Butler at sharonb@adhe.edu, or
Brooks Harrington at brooksh@adhe.edu

DEFINITIONS

Course Offerings – a count of course sections offered in the specified term in the requested category (morning, afternoon, night, weekend, online, and other).

Note that this is section offerings, not sections that actually "made" or conducted.

Morning – any course section offered on a weekday (Monday – Friday) starting before 12 noon.

Afternoon – any course section offered on a weekday (Monday – Friday) starting at or after 12 noon but before 5pm.

Night – any course section offered on a weekday (Monday – Friday) starting at or after 5pm.

Weekend – any course section (any time period) offered on Saturday or Sunday.

Online – any course section offered in an online format. This is defined as any course section with a course method (delv_method) of 20 - Telecommunications from the AHEIS/SISDB manual.

Other – this category is for any course section that does not fit into one of the above definitions.

COMMENTS: IF YOU USE THE OTHER CATEGORY ABOVE, PLEASE PROVIDE A VERY SHORT DESCRIPTION OF THESE COURSE SECTIONS, I.E., WHAT TYPE OF COURSES ARE THESE?

ANC -- The courses listed as "Other" are offered as TBA and flexible schedule to accommodate the rotating shift work of industry employees. The courses may meet at one time and day one week and another time and day the next week.

ASUB -- Other: high school concurrent, internships, practicums, block scheduled courses, applied music, and independent studies.

All 1946 sections are sections that actually "made" and not the sections offered. Sections that are offered but do not make are deleted from the system so there is no way to count them.

ASUJ -- Other contains independent studies, thesis, dissertation, etc. sections.

ASUN -- we had several TBA classes and commercial driver training classes that were offered all day long, so I had her list them under "morning" (which I also separated below) — Of the morning totals--- fall, 2008—of the 286 listed—162 were actually morning classes—98 were TBA and 26 were driver training

spring, 2009—of the 288 listed—154 were actually morning classes—80 were TBA and 54 were driver training, the "other" column shows our concurrent offerings only

ATU -- The course that are listed in the 'Other' category above are typically special problems, independent study, internship, externship, or some sort of capstone course where the instructor and students work out their own schedule.

EACC -- Allied Health Clinicals, Internships, Individually Scheduled Applied Music, Theatre Productions

HSU -- We don't keep a track of classes that don't make after the semester begins. The data provided came from the semester schedules that were developed.

NAC -- The Other column includes both Independent Study courses and courses with TBA times.

NWACC -- Internships, Practicums, Independent Studies, Individual Lessons, Clinicals

OTC -- Independent Studies

PCCUA -- Other = Independent study sections

PTC -- CLINICALS, INTERNSHIPS, INDEPENDENT STUDY, CULINARY LABS WITH TBA TIMES/DATES

SAUM -- These courses have TBA as the start time or were blank with the start time.

SAUT -- Courses are labs, independent study courses where meeting times are arranged, and/or courses that overlap the time periods stated.

UACCB -- I used the "other courses" category to define our practicum courses where students have no set class schedule.

UAF -- Here is the UAF count of classes that were offered last year and per your instruction this is not limited to classes that had enrollment:

Classes listed in the "other" category include: individualized instruction classes such as thesis, dissertation, research, special problems/topics, internships, etc. It also includes classes where the meeting time is by arrangement between the instructor and a specific student, such as private instrument lessons.

UAFS -- Others include interships, individual lessons, participation courses (such as theater), independent study, and morning or afternoon courses that were cancelled and did not retain meeting times.

UALR -- Course sections in the "Other" category are independent study, UG research, voice, student teaching, honors project, field work, internships, piano, guitar, and self study. The "Other" category also includes course sections that were offered initially but were later cancelled.

UAM -- Clinical rotations, private music lessons, internships, independent studies.

UAMS -- Includes classes that span two or more time ranges (e.g., class begins at 8 am and ends at 4 pm), and those held at two or more times of day during the semester.

Arkansas LPN Programs Completion Rate and Licensure Pass Rates

Academic Year/Term	Number of Newly Admitted Students	Number of Newly Admitted Students that Complete the Program	Number of Students that Pass State Licensure Exam	Completion Rate	Licensure Pass Rate
