

**ACADEMIC PROGRAM REVIEW
FY21 (2020-2021) AND FY22 (2021-2022)**

Arkansas Code §6-61-214 requires that the Arkansas Higher Education Coordinating Board (AHECB) review existing academic programs at Arkansas public colleges and universities to identify certificate and degree programs not meeting minimum standards of quality and to establish schedules for either resolving these concerns or removing the programs from the AHECB approved program inventory. The existing academic program review policies (AHECB Policy 5.2) were adopted in 1988 and revised in 1995 and 1998. Institutions have been submitting program reviews for more than 35 years.

Beginning Fall 2010, Arkansas colleges and universities were required to employ external consultants to review all certificate and degree programs over a period of 7-10 years with the findings from the reviews reported to the Coordinating Board. Accredited, licensed and state certified programs follow the usual review practices and the schedule of the accrediting/approval body. These programs do not require further ADHE staff review.

A quality program review, or self-study, describes the status of a program, assesses program strengths, identifies areas for improvement, and provides strategic direction on program goals and specific plans to achieve those goals.

The external reviewers' written report must include a summary of each area examined and should provide examples that document the conclusions. The report will be used by the Arkansas Department of Higher Education to verify the student demand and employer need for the program, the appropriateness of the curriculum, and the adequacy of the program resources. The report does not include a recommendation to ADHE on program continuation or program deletion.

Institutional program reviews received from Fall 2020 through Spring 2022 are listed in this agenda item.

**Review Cycle 2020-2021 & 2021-2022
4-year Institutions**
