- Attachment 5-6: Academic Programs Deleted or Phased Out Arkansas Public Colleges and Universities for Academic Year 2007 (2006-2007)

This report provides summary and detailed information about program deletions during Academic Year 2011 (2010-11).

Attachment 5-1 summarizes the number of program deletions for the academic year by level of program and by level of institution for the last five academic years.

Fifty-two (52) programs were deleted in 2010-11 as compared to 251 deletions in AY2009-10, 37 deletions in AY2008-09, 42 deletions in AY2007-08, and 38 deletions in AY2006-07.

Note the increase to 251 programs deleted in AY2010. This is primarily due to the implementation of new program viability standards that were approved in 2008.

The following graph illustrates that academic program deletions occur at both the 4-year universities and the 2-year colleges.

The vast majority of academic program deletions occur at the undergraduate level. For AY2011, 92.3 percent of program deletions occurred at the undergraduate level whereas 7.7 percent occurred at the graduate level.
