Remediation Rates for the 2009 Fall Term, the 2010 Fall Term, and the 2011 Fall Term

ADHE calculates remediation rates on the fall term only as traditionally the majority of first-time entering students enter college in the fall semester.

Academic Year and Term	Traditional Term
Academic Year 2010, Term 1	2009 Fall
Academic Year 2011, Term 1	2010 Fall
Academic Year 2012, Term 1	2011 Fall

Remediated students are defined as those (1) first-time entering students entering college in the fall semester, (2) that are seeking an Associate's degree or higher credential, (3) were placed in remediation by the institution, (4) and failed to achieve the cutoff scores as noted below on their placement exam.

Test	Math	English	Reading
ACT	19	19	19
SAT	460	470	470
Asset	39	45	43
Compass	41	75	82

ADHE calculates three different remediation rates.

Anytime Rate – this is the traditional calculation of higher education and is a good general picture of all first-time entering freshmen as it ignores when the student graduated from high school, hence, the “Anytime Rate” name. Students can be 18, 58, or any age when entering college.

2-Year Rate – this rate is required by Act 970 of 2009 and includes all students that that have graduated high school within the last two years prior to entering college.

1-Year Rate – this rate was requested by a legislative taskforce and includes all students that that have graduated high school within the last one year prior to entering college, i.e., the most recent high school graduates entering college.
