*Collections began in January, 2001, but funds will not be accessible for two more years.

** Two mills of the three are used for operating funds. One mill is used for capital expenditures, and a significant portion is committed to debt service.

*** These funds are used for capital expenditures only and are not used for the operations of the college. A significant portion of this revenue is tied up to pay long-term 20-year debt service (bond) obligations.
